A la carte is perfect for smaller businesses with less complex accounting needs. With ***a la carte***, you are assigned a manager or senior manager as your primary contact person. You have access to all of the services the firm provides and receive an invoice each month for the services provided. (*See page one for the hourly rates.*) The managing member, Michael J. Stoudt Jr., CPA, personally reviews and signs all tax returns and other similar documents.

WE KEEP SCORE FOR YOU

Business is a lot like baseball. Each member of your enterprise is a member of the team, and each plays an important and singular role. Some players can fill multiple roles, but none of them can do it at the same time, and you wouldn't dream of playing a game without every position filled. Without, say, the fielder, the game would be significantly altered. Without the pitcher, unplayable. This is the work you're doing every day. Without every member of your team on board and filling the roles they are trained for, your performance as a business will suffer.

As the leader, you're the coach: it's your job to ensure you have the right players in the right positions. It's also your job to make sure someone is keeping score. That's us. We're here in the pit, keeping track of every home run so you don't have to. And that means you have more time to keep hitting those home runs!
